

## Call for Student Project Showcase Proposals

The Student-Project-Showcase offers an opportunity for under-graduate and graduate students to do more constructive academic projects to analyse how cloud computing along with BigData, IoT, ML etc can be leveraged to assuage problems of emerging markets. The CCEM Conference has showcased innovative technologies implemented by students in their projects in previous years as well and these sessions have been very interactive with the conference audience.

***Are you all working on cutting edge  
Tech Innovation driven Student project?  
Here is an opportunity to showcase & win!***

**Participate in Virtual Student Project Showcase Competition Introduction  
Saturday Oct 3, 2020 11AM-12 Noon**

Hear Top Experts chat on how to crack this competition  
Tell your friends & spread the word around ASAP!
